

## Innovate Your Learning

## RWD LMS Implementation Services

### Empowering Your Employees

---

In today's competitive economy, your employees need to be empowered to drive business success. As global competition increases, your employees and their knowledge capital are the backbone of your company's ability to react to the market place. Your employee's ability to perform the tasks at hand and understand new company processes and technology becomes critical to the success of your organization.

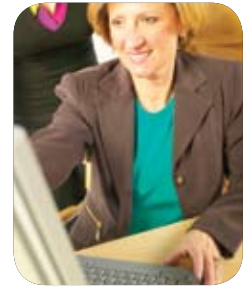

Employers need to offer the following to their employees to ensure this success:

- Access to global knowledge
- Long term learning strategy and professional development
- Centralized and integrated learning management

### RWD Technologies' Approach

Through a unique blend of innovation and experience, RWD focuses on providing our clients with the technology and knowledge they need to support their learning, performance, and professional growth. With experience spanning over a decade, RWD delivers comprehensive learning solutions that overcome the most intricate challenges facing customers implementing or defining a learning strategy. Our Learning Solutions project teams are specialists in providing, not only, the implementation project management and strategy, but also in executing the technical installation, configuration, and customization of all the components of the SAP Learning Solution (SAP LS). RWD's services include:

- End User Learning Solutions
- Learning Strategy Development
- Learning Solution Services including:
  - Installation
  - Implementation
  - Integration
  - Data Migration
  - End-user Training
  - Content Integration
  - Hosting
  - Post Go-Live Maintenance
- Organizational Change Management
- Training
- Optimization
- Post Go-Live Support Services
- eLearning Content Development

#### RWD's Learning Solutions Team Specializes in:

- Implementation Project Management and Strategy
- Executing the Technical Installation
- Configuration
- Customization of all SAP Learning Solution Components

Every solution we develop begins with a thorough understanding of our clients' business objectives and an awareness of the tools and information required by the employees performing the work. Our process employs a systematic approach based on RWD's best-practice project management techniques and SAP's accelerated (ASAP) execution methodology.

### Successful Partnership

RWD has a long and successful history with SAP and have forged that relationship permanently into an education alliance. The alliance, titled "SAP User Training and Performance Solutions...powered by RWD Technologies" offers solutions, services, and products targeting the end user training and performance support portions of SAP implementations, upgrades, or continuous education programs. We understand the needs of SAP end users and have significant experience with other enterprise systems. We can leverage this knowledge and the strength of our relationship to help clients see the benefits of the SAP LS as a key part of their total SAP training program. As an education partner, we are able to work in close conjunction with SAP during LS implementation efforts to assist with the development of an appropriate strategy for the overall learning solution.
